

- (v) This is an effective way to practice. The more you communicate in English, the better your speaking skills will be.
- (vi) Read articles, books and magazines of your choice. Learn new words everyday. When you hear a new word, try to find its usage, synonyms and antonyms.

(Antonym - a word that means the opposite of another word)
 eg:- after before
 artificial real
 beneficial harmful etc

(Synonym - a word or phrase that has the same meaning as another word or phrase in the same language)
 eg:- Big and large are synonyms.

So that you can master that particular language. Then the keep the listener in mind who you addressing to whom you are talking for. keep messages short and simple.

Strategies for Developing Speaking skills :->

- (i) Student often think that the ability to speak a language is the product of language learning, but speaking is also a crucial part of the language learning process.
- (ii) Effective instructors teach students speaking strategies - using minimal responses, recognizing scripts, and using language to talk about language - that they can use to help themselves expand their knowledge of the language and their confidence in using it.
